

DAILY EVENING BULLETIN.

SATURDAY EVENING, OCT. 21, 1882.

TERMS:—The EVENING BULLETIN is published daily, and served free of postage at 6 cents per week; 25 cents per month; 75 cents per three months; \$1.50 per six months, and \$3 per year, payable in advance.

THE EVENING BULLETIN HAS A LARGER CIRCULATION IN THIS CITY, CHESTER AND ABERDEEN, OHIO, THAN ANY OTHER PAPER PUBLISHED IN MAYSVILLE.

Public Speaking.

The Hon. John G. Carlisle will address the people of this city and county at the court house in Maysville, on Thursday evening, October 26th, at 7 o'clock. Everybody is invited to come and hear this distinguished Democrat.

THERE are thirteen cases of small-pox at Cincinnati and it is feared scarlet fever will become epidemic.

THE amount of money in the United States treasury at present is stated to be two hundred and forty-three millions.

JOHN G. THOMPSON is of the opinion that the next House of Representatives will be Democratic by from thirty to fifty majority.

A WASHINGTON dispatch says that whatever may be the result of the election in New York the cabinet will be entirely re-organized on the iron clad Stalwart plan.

A DESPATCH from Chillicothe, Ohio, says that the official figures from Clinton and Brown counties, together with the official vote of other counties as printed in the Republican journals show that Neal is elected to Congress over Hart by three majority.

THE "Air-Tight and Great Windy," feature that Tom Davis gave to the Republican seems to still adhere to that enterprising journal. It contains more sulphuretted hydrogen, however, than the Davis article. It has become a necessary article with the Republican.

THE committee of tariff-tinkers appointed at the late session of congress are about to end their so-called labors and make a report of their junketing through the country. But little beyond a white-washing of the present unjust and discriminating tariff need be expected. In fact the commission was formed for that express purpose and the further "protection," of the millionaire manufacturers of the East. It was packed by the President and the testimony has been packed by the commission. It is expected that the report will be ready to be presented to congress at the session in December, but whether congress will want the report this winter, or at all, remains to be seen, and if it does want it and receives it, its disposition is somewhat problematical. One thing is certain, however, and that is that when the House of Representatives takes hold of it there will be music. The evidence taken by the board in different cities, if it accomplished nothing else, showed this, that there is much lack of agreement as to what they want among those engaged in many of the leading industries. At Philadelphia, for instance, one set of iron men said the duty on iron should be fifty cents a ton, another set demanded eighty cents and others wanted it still higher. The commission cannot very well recommend all and whatever it does recommend will displease one or the other of the parties, or all of them. After all, congress when it comes to act will be as likely to listen to one side of the testimony as it will to the evidence obtained by this commission which is largely unfair to the general interests of the country and therefore unworthy of consideration.

Labor Notes.

Maryland has 21 mills and 132,000 spindles.

There are six coal mines working in Arkansas.

There are 63 nail factories in the United States.

In 1879 Ireland's iron product was 153,833 tons.

Ireland's coal yield amounts to 150,000 tons annually.

There are 253 furnaces in the Stubenville, O., district.

Randleman, N. C., has a mill which runs 4,600 spindles.

The glass works of Pennsylvania are booming with business.

Trade is reported fair to good in the silk mills of Paterson, N. J.

Brooklyn, N. Y., has the only needle factory in the United States.

Carpenters and masons are in good demand at Chattanooga, Tenn.

The 20,000 locomotives in use on American railroads cost \$165,000,000.

There are \$5,220,000,000 invested in the railroads of the United States.

The mills are busy at Biddeford, Me., Lawrence, Lowell and Fall River, Mass.

An Atlantic, Iowa, canning factory turns out 6,000 cans of corn and tomatoes daily.

Bessemer steel works number 15 in this country, and have a capacity of 2,250,000 tons.

The wealth of the United States has multiplied twelve-fold during the past forty years.

There are 409 rolling mills in this country, with an annual capacity of seven million net tons.

The San Francisco marble cutters have resolved that nine hours shall constitute a day's work.

Eight hundred thousand pounds of butter is the estimated annual products of the United States.

The machine shops of New York City, Brooklyn, Jersey City and Philadelphia report trade as fair.

The hardware factories of New York City, Brooklyn, Cleveland, Worcester and Philadelphia, are busy.

There are 686 blast furnaces in the United States. Their united capacity is 8,000,000 net tons per year.

The Brotherhood of Locomotives Engineers held their annual convention at Terre Haute, Ind., recently.

Atlanta, Ga., is building an oleomargarine factory. It is to be an immense affair. The enterprise is backed by \$500,000 capital.

There are seventy cotton-seed oil mills in the south. In 1881 their product was 7,000,000 gallons, valued at three million dollars.

Georgia is looking up. Within the past year her wealth has increased sixteen million dollars, which is about \$11 for each of her inhabitants.

The annual value of the products of the United States are estimated at ten billion dollars. The value of our exports last year were \$733,000,000.

A thousand men were thrown out of employment in Worcester, Mass., recently by the breaking of a shaft in the establishment where they were employed.

Railroad prospects are bright indeed, with a crop of over 500,000,000 bushels of wheat, 6,000,000 bales of cotton, and 1,500,000,000 bushels of corn, waiting to be moved.

Upwards of 40,000 farm wagons are made annually at Racine, Wis. On an average there is a farm wagon made in every eight minutes of each working day.

A shooting affray occurred at Knoxville, Tenn., Thursday. Major Thomas O'Connor shot and killed General J. A. Mabry, sr., and Joseph A. Mabry, jr., and was shot and killed by the latter, all in the space of a minute and without a word being spoken.

This month it is expected that special efforts will be made in all the Episcopal Churches and Sunday Schools in the United States, in response to the action of the General Convention in regard to the creation of a fund of \$100,000, "the income of which shall be given and portions of which may be loaned to aid the building of churches."
